increased \$92,100. It was said that the plan for retiring the Mexican first and second incomes would be announced next week, the final figures not yet having been decided upon.

Late Trading—There was some profit-taking in the afternoon by room traders and scattering commission-hotses. A rumor also circulated that war was imminent between Japan and Russia. The market sold off fractionally, but the under-tone was by no means weak.

The Close-The offerings of stocks in the last hour were not heavy, and came mostly from professionals. The street took it as a favorable sign that the market was much quieter on the reaction than it had been on the advance. There was no news apart from the unfavorable weekly reports on cotton and grain to explain the decime. It was generally regarded as natural and to be expected.

ed by the Commercial Advertiser through Bro. & Co., No. 214 North Fourth

Francis, Bro. & Co., No. 214 North Fourth Fourth Street. York, May 5.—Foreign—Americans in London were more active than in some days, and showed noteworthy strength on buying by New York, Prices came generally higher. The artiting houses traded on both sides of the account in this market, buying on balance out of a total of 15,000 shares.

Anthracite Shares-D. & H. scored a further advance in the early dealings on buying induced by yesterlay's reports of the "modernizing" of the property. It later reacted somewhat on profit-taking. The Eries were strong and active and Reading became the feature of the trading shortly after noon, rising on the purchase of 15,000 shares by Harris, Gates & Co., followed by scattering purchases by commission-houses and traders.

Mexican International—The strength of International Rallway of Mexico was due to the resumption of buying by the same interests which started the movement. Talk of a "deal" continued. The Mexican International reported earnings for March: Gross Increased \$155,555, and net

Yesterday's Bank Clearings.

STOCKS OPENED BRISKLY, BUT CLOSED QUITE DULL.

RAILROAD SHARES CON-TINUE TO RISE ON 'CHANGE.

Advance in Sterling Exchange Expected to Stop Outpouring of Gold.

New York, May 5.-The day's developments bearing on values of securities were rather favorable than otherwise, but this did not enable professional traders in stocks, who were the buyers of yesterday, to barely realize their profits without turnto barely realize their profits without turning prices downward once more.

There was a fair degree of activity in the
market up to noon, in that time some 200,(0) shares of stock were dealt in During
the latter part of the day the trailing fell
into semistannation again. Some part of
the early activity was undoubtedly due to
manipulation to facilitate the taking of
profits

manipulation to facilitate the taking of profits

Delaware and Huduson continued yesterday's advance to the extent of 1½ and St. Paul, Northwestern, Canadian Pacific and Louisville were lifted at one time 12/1½ everlast night. There was a continued large trading in National Railroad of Mexico and in Reading, the last named rising at one time ¼ over last night. Pennsylvania was lifted as much. This stock sold ex, dividend of 3 for cont, and there was an element amongst traders who bought it and Atchison yesterday on the supposition that the taking of the semiannual dividends from the trice would make them look cheap and attract buying. But the buying thus attracted was not sufficient to offset the selling to realize by yesterday's buyers.

COPPER RECOVERS.

A recovery in the price of copper gave dventure

ing to realize by yesterday's buyers.

COPPER RECOVERS.

A recovery in the price of copper gave firmness to Amaigamated. Some of the obscure industrial stocks were pushed upsharply in an effort to sustain the market after the realizing sales began to have some effect, but this maneuver proved unavailing, and there was practically nothing left of the day's rise at the close, which was heavy and showed small fractional net losses generally.

The recent rise in sterling exchange came to a halt to-day, although the late market was firm, and discounts in London were also easier. At the same time there was a sharp advance in sterling exchange at Parls, which was sufficient to wipe out the profit on the so-called triangular gold export operation. It is not expected, however, that gold will go out to Europe this week, although a small shipment to South America is indicated. The strength of sterling at Parls is believed to be due to remittances to participate in the Transvaal loan.

RAILWAY PARNINGS.

A number of favorable reports of rallroad gross earnings for the month and the fourth week of April were without effect on the market. New York Central, Missouri Pacific, Louisville and Nashville, Southern Rallway, Chicago Great Western, Norfolk and Western, and Chesapeake and Ohio all made handsome increases in gross earnings. ON MODERATE SELLING.

TRANSIT LOSES MORE THAN \$2 A SHARE.

Brewing Association Bonds Lead Miscellaneous List on Downturn.

Despite the fact that the statement of the St. Louis Transit Company showed earnings of more than \$1,000 for the three days of the World's Pair Dedication period, the stock of that corporation was freely offered at yesterday's session, and the seiling of comparatively small lots was sufficient to cause a break of more than \$2 a share. At the opening ten shares were taken at \$25.00. Later a like amount was sold at \$27.50. Comparatively share. United Railways preferred was also lower at \$79, and the 4 per cent bonds were easy at \$55.25.

Commonwealth Trust was the active banking issue at the morning session, with sales on the advance from \$304 to \$255.

Granite-Bi-Metallic, the feature of the miscellaneous list, slumped from \$74c to \$236.

Beef Cattle Lower-Native Supply Fair

-Sheep Close Strong.

NATIVE CATTLE-A moderately good supply of native cattle were offered, but about 1,690 less than new on sain and the sain. The proportion of beef steers was quite large, and nearly the sain. as was outen a wex ago. The quality was generally very good, aithough there were not a great many of the choicer and finished kinds included in the supply or many of the lighter and poorer classes.

a great many of the lighter and cluded in the supply of many of the lighter and poofer classes.

The market held the same lifeless tone that prevalled the day before, and there were few early sales, but these were considered fully steady with Monday's decline. A few outside buyers were on hand, but they did not lend much strength to the trade, for their orders were light, and they were soon filled. Trading then on was chiefly with local buyers, and they did not indicate that they needed supplies very badly, and very mean bids were received.

The truding was very uneven, and values ranged from steady to like lower than Friday, and on this basis sales were mide, and were slow even at the decline. The general opinion was that the moderately heavy cattle were easiest to move, and sold steady, while extremely heavy and the light weights showed the most decline.

Representative sales.

At the opening a general weakness was reported, with considerable complaining of lower bids. However, there were some early sales made of a good class to butchers and outsiders that were fully steady. Later, while the market was dragsy and did not display any particular life, sales were generally considered about steady. Canners were weak and slow. Bulls moved fairly well at steady to a shade lower values, the loss being on the export kinds. Calf supplies were more liberal and sales show a decline of about 25c.

SOUTHERN CATTLE—A good supply of quarantine cattle were offered, consisting of 63 cars and containing 1,751 head, against 48 cars and 2,419 head last Tuesday, and 61 cars and 1,700 head two weeks ago. The bulk of the supply was steers, and mostly grassers. The top was obtained for fed cferings at \$4.60, while grassers sold up to \$4.30. Grass cows were in decent supply was steers, and mostly grassers. The top was obtained for fed cferings at \$4.60, while grassers sold up to \$4.30. Grass cows were in decent supply but not a great many bulls were received, and only a few calves.

There was a slow movement and a very mean tone to the trade, and on the foremon market only a small end of the supply was sold. When the basis of trading was once established, cattle went to the scales more freely, but only after the hardest kind of work or the part of the selicity of the supplices generally were considered about steady.

a top of \$6.95, and the bulk at \$5.75\$6.85 Monday.

SHEEP—There was only a fair run of sheep, hardly enough to even call the supply moderate. The arrivals included two double decks of fed Mexican lambs and two single users of fed Western lambs from Missouri. Also a pretty good representation of spring and mutton lambe, fluyers were out in full force and anxious for all the good stock they could score consequently trading was active and sellers were able to force an advance in prices, which, as a rule, amounted to Sc on all decent stock untable for mutton. Half-fat sheep and lambs sold better than last week, but did not show the improvement the better grades did. The market is row almost back to the high basis of three weeks ago. Saiss included spring lambs from \$59.50, native matton lambs at \$5.25\$7. Mexican lambs at \$7.50, western lambs at \$5.75\$7. Mexican lambs at \$7.50, western lambs at \$6.75 and native auditon sheep at \$465.50, the bulk of the good ches going at \$105.50. One of the largest attendances of buyers seen on the market in quito a long time is here this week. They come from East South and the continuary coates of business, but the horse when arrival operators for in the ordinary coates of business, but the analysis of here the large statistical operators for in the ordinary coates of business, but the hardes and supply in the 'buil ring' was 19th to as a transport of the same and shally very much sought, but all chases will be held Westnesday. The Tousday supply in the 'buil ring' was 19th to as a transport of the seek are that the market ruled on a strong and lightly satisfactory hashes dood to choice counts and deems to extra herness houses were especially very much sought, but all chases sold well commencerate with their goal of the best in the country and miss are mainted of the week are that the market will maintain very lively characteristics.

Dry Goods.

New York, May 5.—Prices in dry goods are without change and yet buyers are not more inclined to anticipate their future needs than at any time during the last month or more. The situation of the raw material and the indisposition of buyers to operate freely are factors against which the manufacturer is obliged to contend.
